LAKE FOREST CONDOMINIUMS ANNUAL MEETING June 26, 2021

I. CALL TO ORDER

The Lake Forest Board of Directors Meeting was called to order by Bob Seibert at 1:31 p.m. via videoconference.

II. ROLL CALL

Board Members Participating Were:

Bob Seibert, President, F303

Dennis Murphy, C203

Ron Crist, Secretary, C104

Pete Shaub, A101

Patti Tofe, Treasurer, B302

Owners Participating Were:

David & Joyce Roll, A103

Ken & Julie Dondero, A202

William Gibson, A304

Douglas Weigand, B201

Richard & Delores Eckrich, C201

Adele Gelfand, C302

Madeline Mishkind, D104

Dennis Burke, D304

Thane DePuey, E301

Sherri Kroonenberg, F302

Carol Thompson, A104

Hubbard Helm, A302/F202

AnnMarie Heneghan, B201

Martin Tarabocchia, B301

Dennis Murphy, C203

Thomas & Connie Moore, D103

David & Deborah Cohen, D303

Ben Duhl, E201

Sue Sorensen, E304

Wendy Chen, F306

Representing Summit Resort Group (SRG) were Kevin Lovett and representing Summit Property Maintenance was Ed McBrearty. Erika Krainz of Summit Management Resources was recording secretary.

With 24 units represented in person 21 by proxy a quorum was confirmed.

III. STATEMENT OF COMPLIANCE WITH PROCEDURES FOR NOTICE OF MEETING Notice of the meeting was sent May 26, 2021.

IV. READING AND APPROVAL OF MINUTES OF LAST MEETING

Motion: Adele Gelfand moved to approve the June 27, 2020 Annual Meeting minutes as presented. William Gibson seconded and the motion carried.

V. REPORTS OF OFFICERS/PRESIDENT'S REPORT

Bob Seibert said there have been some changes to the Board. Kathy Chinoy and David Ehrenberger sold their units. They were thanked for their service on the Board. Both seats will be filled in today's election.

The real estate market has changed drastically. Three years ago, the decision was made to proceed with renovations and a Special Assessment. The complex looks wonderful and it was a good decision. There have been quite a few changes in ownership over the past year. Owners are encouraged to dial in for Board meetings or to contact the Board with comments or questions.

The Lake Hill project was slated for work force housing. There is a current housing crisis in Summit County but there are numerous obstacles to development of this property. It is not anticipated that this project will move forward anytime soon. The related road improvements are also on hold.

A Level 2 fire restriction is in place in Summit County and all fires are prohibited. COVID restrictions are being lifted. Lake Dillon is 99% full.

The Maintenance and Finance Committees are active and a Rules Committee should be established to address issues with parking, dogs, smoking, noise and trash. Owners interested in serving should contact the Board. Bob will not be running again and there will be four seats up for election. He thanked the other Board members and SRG staff.

VI. REPORTS OF COMMITTEES

A. Finance Committee & Treasurer's Report

Patti Tofe reviewed the Finance Committee Report. Excellent Construction came in \$175,000 under budget. There was \$96,000 from the 50% shared savings, under budget amounts and interest to pay toward the defect repairs, leaving a remaining amount of \$22,000 paid from general Reserves. The 2021 Budget was prepared with consideration of rising costs, especially snow removal, which was based on prior years. The snow blower has kept the expenses under budget and reduced damage. Neils Lunceford provided a proposal for landscaping with a 50% increase. The proposal was declined and other providers were found. The Board decided to have Cona provide another Reserve Study. After completing the 2021 Budget, it was apparent there were not enough Operating dues to cover expenses. The Board approved a reallocation to increase Operating dues and decrease the Reserve contribution. Owners should carry an H06 policy that includes coverage for loss assessments to cover the Association \$10,000 deductible.

B. Maintenance/Grounds Committee

Dennis Murphy prepared a written report, which will be distributed with the post-meeting documents. The renovation project is essentially completed, and was under budget and on time. The two outstanding issues to be resolved are the Pella windows and the stone wainscoting. Some of the windows were incorrectly manufactured and were not suitable for high altitude. It has been a struggle to get resolution. As of Monday, all windows identified as being faulty will have been replaced by Pella Technicians at no additional cost to the Association. There has been some deterioration of the stone wainscoting. Replacement stone is on site and the Board is negotiating with the manufacturer about the installation details. Other repairs in the past year included redoing the bottom portion of the staircases between Buildings E and F and stabilizing the walls with concrete, hired a new contractor to do the first phase of new plants and bushes, improved some planting beds, purchased a snow blower, mitigated bat issues in Buildings A – D, installed new signage and new exterior lighting, removed dead trees and trimmed trees and fire sprinkler inspections. There was a significant flood in the west stack of D Building caused by a failed furnace thermostat that resulted in frozen pipes and leak damage. The three damaged units are being rebuilt. The top priority next year will be to install low temperature alarms

Lake Forest Condominiums Board of Directors Meeting 6/26/21 Page 3 of 3

in all units. A maintenance request form is available on the website and owners are encouraged to submit a form for any needed repairs around the property.

C. Rules Committee

A Chairperson and volunteers are needed to constitute this committee.

VII. UNFINISHED BUSINESS

- A. Owner Comments
 - 1. There could be funding for a noise abatement wall along I 70 if infrastructure funds are dedicated.
 - 2. The D Building stairway paint has worn away. Dennis Murphy said all stairways are on the list for the Maintenance Committee to address this year.
 - 3. The weeds need to be sprayed. The Board will follow up with Keith.
 - 4. It was noted that the internet speed is 69 Mbps at the complex. The Board approved an upgrade that will be implemented in September when the current contract expires.
 - 5. A skylight in a unit is discoloring around the edges. It was noted that this should be submitted on a maintenance form to the maintenance committee.
 - 6. The ground level patios need repainting or resurfacing. During the renovation process, there was a plan to apply a coating but the Board decided to clean, fill cracks and leave the natural concrete instead.

VIII. NEW BUSINESS

A. Owner Education

Kevin Lovett reviewed the Association insurance policy coverage. Owners should carry coverage that includes an H06 policy for the unit contents, liability, loss of use or rent and deductible subrogation.

B. Next Meeting Date

The new Board will set the next Annual Owner meeting date.

IX. ELECTION OF DIRECTORS CANDIDATE PRESENTATION

There were four Board seats up for election, three for full three-year terms and one to fill the remainder of David Ehrenberger's term. The candidates were Dennis Murphy, Skip Hale, Paul McQuay, Thane DePuey, Hub Helm and Douglas Weigand. The candidates who were on the call introduced themselves and provided biographical information. The election will be conducted by email.

Lake Forest Annual Meeting 2022 Maintenance Committee Report

Unfortunately, Dennis Murphy sold his unit and resigned from Lake Forest BOD. He was very busy but was still able to work on the following before he left:

- 1. water damage in the D 302 and B 304 stacks
- 2. 300 level inspection and tenting plan with Excellent Construction to insulated potable and sprinkler lines
- 3. last of Pella replacement non- high-altitude windows
- 4. reviewed many Architectural Remodeling request Forms

2022 Completed projects

- 1. Buildings A F furnace B-vent repaired and painted
- 2. Dumpster building man door replaced
- 3. Gutters at C104 & D 104 installed
- 4. Attic inspection of all 300 levels for water damage/ leaks, thermostat and water heater condition (included)
- 5. Hot Tub/ Spa building painted and deck stained
- 6. Two new Dog Waste Stations installed
- 7. One new Hot Tub Cover

Insurance Claims

- 1. D 304/204 104 Skip Hale
 - a. remediation and upgrade work is finished and waiting to submit final invoices to insurance company for last insurance proceeds
- 2. D 302/202/102 Skip Hale
 - a. D 102 remediation and upgrade work is finished
 - b. D 202 & D 302 waiting on insurance approval for insulation to bring the unit to code
 - c. Received insurance proceeds but does not cover all expenses
 - d. Requested claims adjuster to request to reopen the claim
 - e. HOA will have to pay the \$10,000 deductible
 - f. There was water damage from a secondary leak in D 202 from a toilet
- 3. B 304/204/104 Skip Hale
 - a. Western Sates Fire Protection Company has the design for the new sprinkler system and has submitted it to the insurance company and the fire marshal for approval
 - i. The fire marshal has not responded
 - b. There was a large discrepancy between the first bids from Excellent Construction \$117,000 and Belfor \$29,000 to open and close the drywall.
 - i. There was a subsequent June 7 meeting with the claim adjuster, Belfor and Ed Storako of Excellent Construction. Ed provided information to adjust up the bid from Belfor to \$51,000 and now \$57,000, while Ed's bid grew to \$121,000.

- ii. Lake Forest has selected Belfor to complete the fire sprinkler system drywall portion. John Iverson said Belfor is CAU's (insurance company) contractor of choice. He said they do excellent work, and we must be satisfied with the job.
- c. HOA will have to pay the \$10,000 deductible
- d. CAU requested Lake Forest replace the Poz-Lok in all buildings. Instead, Lake Forest submitted a remediation plan to insulate and tent the water lines in the 300 level attics to be completed by the winter season. The Board considers this action to be "deemed accepted" by CAU.

2022 projects in progress

- 1. Tenting of the water lines in the 300 level attics
- 2. Summit County fire marshal inspection delinquencies 2 garages remaining unresolved. E301 has sent photos of recent removal of 2X6 braces to fire marshal. Awaiting approval letter.

Maintenance Committee Chairman, Keith Willy, lead the committee through worksheet revisions and deletions through a Zoom meeting he arranged June 13, 2022.

2022 project list

- 1. Skylight maintenance per the maintenance and insurance policy the HOA has responsibility for the maintenance. A 302 has reported leaking skylight. When this is done all the skylights on that roof will be caulked at the same time.
- 2. Securing the hot tub and adding surveillance cameras. There has been unauthorized use of the hot tubs after hours and in the early mornings leaving suds.
- 3. Vestibule landings stain
- 4. Fire alarm control centers replace 2 on order
- 5. Triennial roof inspection and determine useful life

Priority Maintenance Worksheet

Reviewed and updated the worksheet.

Dennis and Patti discussed 4 projects they recommended lowering the priority rating on and reducing reserves for 4 items. The maintenance committee approved this recommendation.

a. Move non-immediate items to Maintenance List and decrease required reserves

i. Loose Stones decrease by 10,000
 ii. Decorative rock betw Bldgs A-D garages
 iii. Roof Ventilation E & F (no bat infestation)
 iv. Timber stairway between E & F competed
 decrease by 4,500
 decrease by 6,925
 decrease by \$6,376

Total Reserves to be reduced \$27,801

Lake Forest April 4, 2022 email

Hi Lake Forest Owners,

Please see the attached approved minutes from recent Lake Forest Board of Directors meetings.

The following meeting minute excerpt addresses the attic pipe tenting/insulation:

"Attic Piping, freeze prevention efforts; Excellent Construction will complete D Building attic piping freeze prevention efforts next week. Then, Excellent Construction will be moving onto C Building, B Building and then A Building."

It is our goal to have this effort completed by next winter season. It will include E & F. Please continue to adjust your thermometer up to 60 degrees for the remainder of this winter season to avoid a leak in your stack.

The Board has a lot of work to do with limited resources. We are staying focused on our top priority tasks which include replacing the Poz Lok in B 304 stack, attic pipe tenting/insulation and site management transition. Once the transition of site management is completed and things are going smoothly, we will have more time for other items. Please be patient with us.

Thank you,

Lake Forest

INTRODUCTION

At the request of John Iverson with McMillan Claim Service (McMillan), AEI Corporation (AEI) investigated a water loss involving a sprinkler system at 1630 Lake View Terrace, Building B, Unit 304B, in Frisco, Colorado. AEI was asked to evaluate the installation, inspection, testing, and maintenance of the sprinkler system. Additionally, AEI was asked to evaluate the applicable codes and industry standards of care regarding the installation of the sprinkler system. The following is a summary of our findings to date.

BACKGROUND

The subject property is a multi-story wood framed condominium/townhome building constructed in the early 1990s. The building was constructed in four sections with three units in each section, for a total of twelve units per building. When the building was constructed, the applicable codes required the installation of a sprinkler system. Western States Fire Protection (Western) has been inspecting and servicing the sprinkler system proximate to the loss.

On February 23, 2022, the sprinkler system in Building B, Unit 304B, was observed leaking in the kitchen from the west ceiling in proximity to the mechanical room. The maintenance staff opened the ceiling to determine where the leak was located and concluded a sprinkler line in the attic was the source of the water.

INVESTIGATION TASKS

The following tasks were performed by AEI during the course of the investigation:

- 1. Attended a site inspection on March 14, 2022.
- 2. Reviewed the items listed below.

REVIEWED ITEMS

The following items were provided or gathered for review:

- 1. 1991 Edition of the Uniform Fire Code (UFC).
- 2. 1987 Edition of National Fire Protection Association (NFPA) 13, Standard for the Installation of Sprinkler Systems.

3. The 2020 Edition of NFPA 25, Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems.

SITE INSPECTION

This writer attended a site inspection on March 14, 2022. John Iverson of McMillan and Keith McBreathy from Summit Resort Group (Summit) were also in attendance. The kitchen area of Unit 304B was accessed (Figure 1), and it was observed that the ceiling had been opened to locate the leak (Figure 2). There were two levels of gypsum board, a main ceiling, and an additional fire barrier approximately 15-inches above the main ceiling, also shown in Figure 2. The water damage observed was limited to the kitchen of the subject unit. It was determined by Summit that a sprinkler line had separated, resulting in the discharge of water into the unit. The subject sprinkler line was determined to be comprised of ¾-inch Poz-Lok tubing and a ¾-inch Poz-Lok 90° elbow, as shown in Figure 3.

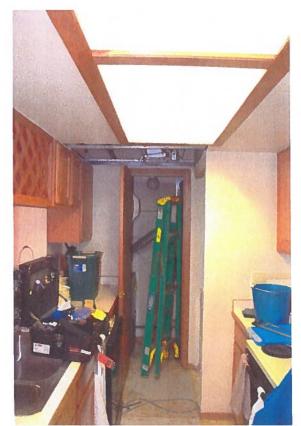

Figure 1. Kitchen in Unit 304B (15092 CBS 1-007).

Figure 2. Removed ceiling in kitchen of Unit 304B (15092 CBS 2-006).

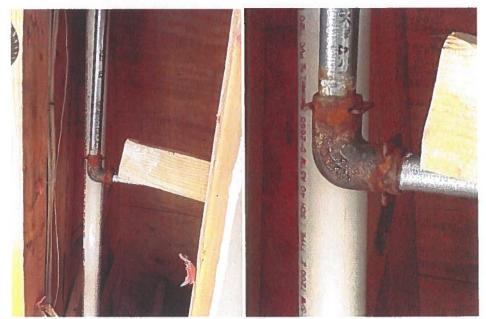

Figure 3. Subject sprinkler pipe and fitting (15092 CBS 2-001, CBS 2-002).

The area of the leak was documented and the tubing was marked for removal, as depicted in Figure 4. The tubing was cut and removed, as illustrated in Figure 5. Corrosion products were observed and the tubing was separating from the north side of the fitting, as shown in Figure 6. The tubing had moved approximaely ½-inch from its assembled location. The key, used to lock the tubing to fitting, was still in place and the tubing could not be moved by hand, as depicted in Figures 6, 7, and 8. When installed, Poz-Lok tubing is inserted into a Poz-Lok fitting through an O-ring until it bottoms out. The fitting has two slots that a key slides into and is then knocked into place with a hammer to lock the fitting onto the tubing.

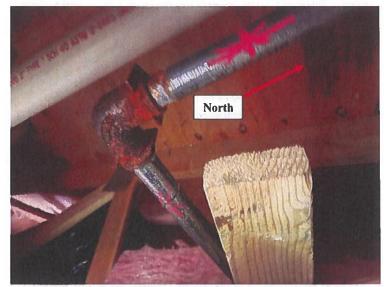

Figure 4. Tubing marked for removal (15092 CBS 2-015).

Figure 5. Poz-Lok tubing and fitting after removal. Tubing can be observed starting to separate from the fitting (15092 CVBS 2-019).

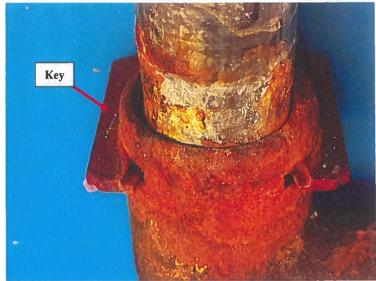

Figure 6. Key used to hold tubing in place in the elbow fitting. Tubing separation from fitting is visible (15092 CBS 2-025).

Figure 7. Tubing separating from the elbow fitting (15092 CBS 2-027).

www.AElengineers.com

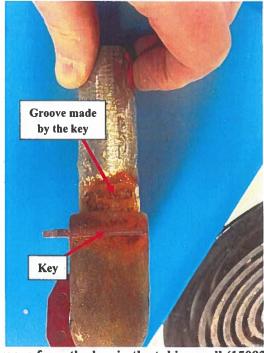

Figure 8. Groove from the key in the tubing wall (15092 CBS 2-023).

The sprinkler riser room on the lower level was inspected. The incoming water line was a combination line for the domestic and sprinkler systems. The incoming water line branched off to a 1 ½-inch supply for the sprinkler systems. The sprinkler manifold consisted of steel pipe and tees that supplied four sprinkler risers. The risers transitioned to 1 ½-inch Poz-Lok components and tubing, as illustrated in Figure 9. There were Western inspection tags on the system, as shown in Figure 10. The fire alarm system, an FCI fire alarm control panel, was in the riser room and the panel was in alarm, as depicted in Figure 11.

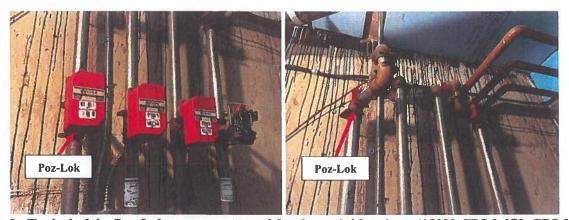

Figure 9. Typical of the Poz-Lok components used for the sprinkler risers (15092 CBS 2-073, CBS 2-074).

Figure 10. Western inspection tags (15092 CBS 2-040, CBS 2-038).

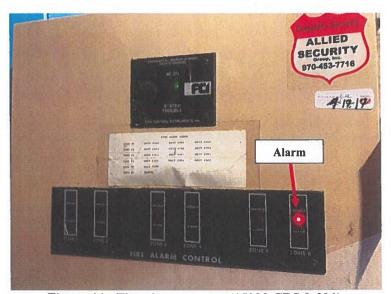

Figure 11. Fire alarm system (15092 CBS 2-091).

WEATHER HISTORY

The weather history for the month of February, from the closest NOAA weather station at Dillon 1 E, CO, was reviewed, as illustrated in Figure 12. In early February 2022, temperatures dropped to a low of minus 22°F on February 4, 2022. Temperatures of 0°F or below were recorded 11 times in February prior to the date of the loss.

Figure 12. Excerpts from the NOAA weather history for Dillon 1 E, CO.

John Iverson April 26, 2022 AEI Project No.: 15092 Page 12 of 13

SUMMARY OF FINDINGS

The day of the loss, water was observed coming through the ceiling of Unit 304B. The building maintenance staff opened the ceiling to see where the water was leaking from. Approximately 15 inches above the kitchen ceiling was a layer of gypsum, which also had to be removed. Once exposed, the maintenance staff observed a steady stream of water flowing from a partially dislodged section of pipe/tubing at a 90° Poz-Lok elbow.

The weather data for February 2022 was reviewed. Record low temperatures were recorded in the first week of February. The temperatures were at or below 0°F eleven times in February prior to the date of the loss. On the date of the site inspection, there was no insulation in proximity of the tubing and fitting. It is unknown how much insulation may have been over the sprinkler components prior to the loss.

The sprinkler tubing was installed in the enclosed attic space above the kitchen of Unit 304B. The tubing and elbow were examined in place and removed after the examination. A subsequent visual examination of the pipe was completed at AEI. It was noted that the tubing was partially dislodged from the Poz-Lok fitting but could not be moved by hand. Based on the reviewed weather data and the witness marks on the tubing, the failure was the result of water freezing in the tubing. The tubing likely began to dislodge from the elbow in early February and started leaking water when the ice thawed around the date of the loss.

Corrosion was observed at the juncture of the tubing and fitting. However, based on the witness marks, the corrosion did not contribute to the tubing separating from the fitting. The welded seam on the tubing was not damaged and/or leaking, and there were no conditions observed with the tubing and fitting that would indicate any failure mechanism other than freezing.

When installed, Poz-Lok tubing is inserted into a Poz-Lok fitting through an O-ring until it bottoms out. The fitting has two slots that a key slides into and is then knocked into place with a hammer to lock the fitting onto the tubing. The deformity in the tubing created by the key was clearly visible on the subject tubing, and witness marks were observed where the key was dragged over the tubing when it was dislodged from the fitting.

John Iverson from McMillan and Keith McBreathy from Summit informed this writer that the fire department told them the Poz-Lok sprinkler system should not be in the building anymore. Poz-Lok components have not been manufactured and/or used for new sprinkler systems since the mid-to-late 1990s. Back then, a small supply of these parts was available in the Denver area through sprinkler contractors, but Poz-Lok parts can no longer be found. Poz-Lok systems are no longer supported in the sprinkler industry, and parts are unavailable to complete repairs. Additionally, there were several class action law suits involving Poz-Lok sprinkler systems. The majority of the cases involved dry pipe

John Iverson April 26, 2022 AEI Project No.: 15092 Page 13 of 13

sprinkler systems installed using Poz-Lok components. The nature of these losses involving dry pipe systems had to do with the welded seam on the tubing. During the manufacture of the tubing, the metal was dipped in zinc. When the metal was rolled to weld the seam, the zinc contaminated the weld and air was prone to leak from the seam, creating problems with the dry pipe systems. The subject sprinkler system in this case was a wet pipe sprinkler system. The statute of limitations to file claims regarding Poz-Lok systems has expired.

CONCLUSIONS

The results of the investigation and analysis performed by AEI Corporation indicate the following:

- 1. The water loss was the result of Poz-Lok tubing partially dislodging from a Poz-Lok elbow fitting when water in the tubing froze.
- 2. Parts to repair the Poz-Lok sprinkler system can no longer be obtained, and replacement of the sprinkler system will be required.

Lake Forest Condominium Association

Architectural Improvement and Remodeling Policy

Introduction:

Lake Forest unit owners are welcome to upgrade or improve the interior of their units to suit their personal style and individual tastes. The Lake Forest Home Owners Association (HOA) has established the following procedures, requirements and standards in order to maintain the high quality of Lake Forest Condominiums and to insure that all such work is done in a safe, workmanship like manner. These rules are designed to minimize the adverse impact on other unit owners and maintain the best possible living standards, aesthetics and property values for all unit owners.

Procedures:

A unit owner desiring to make modifications or improvements to the interior of their unit must complete and file the Architectural Improvement and Remodeling Request form to the HOA (see attached Form). Written approval must be obtained prior to commencement of any work (with the exception of owner DIY projects that do not require permits). This form along with all required supporting documents shall be filed to:

Lake Forest Condominiums HOA c/o Summit Resort Group Box 2590, Dillon, CO 80435 Phone: 970-468-9137 Fax: 970-468-2556 Email: klovett@srgsummit.com

Requirements:

- 1. Owner improvements are only permitted within the individual units and may not interfere with or affect any adjoining units.
- 2. No modification of any kind will be permitted to the building exteriors or any Common Element of the Lake Forest Condominiums complex. For example: siding, railings, decking, external doors, windows, light fixtures etc.
- 3. Any request to make changes to structural interior walls, plumbing locations, electrical wiring, fireplaces, windows or doors must be accompanied by detailed drawings, specifications and descriptive literature.
- 4. For any work that may require building permits by either Summit County or the Town of Frisco, the unit owner must obtain such permits and provide a copy thereof to the HOA prior to the commencement of any work.
- 5. Any contractor or tradesman engaged by the unit owner to work on the unit *must* be licensed in the trade they are practicing and insured in Summit County or the Town of Frisco for the type of work requested. It shall be the unit owner's responsibility to provide written evidence of the contractor's and/or tradesmen's proper license and insurance to the HOA.
- 6. Additional unit contractor needs requiring specific written Board approval:
 - a. On-site contractor vehicle 'storage' (e.g., van or a trailer used to store tools or materials and left on-site overnight during the unit's project);

b. Common area workspace (e.g., tile cutting, wood sawing). If an outside workspace is needed, the owner must also define the plan to ensure their contractor does a daily clean-up of any such common areas.

Restrictions:

The Unit owner must insure that:

- 1. Construction debris, fixtures or furnishings of any kind are **NOT** discarded in the Lake Forest trash building or recycle receptacles.
- 2. Construction vehicles, materials and supplies do not block any entryway except for very short periods while direct loading or unloading activity is underway.
- 3. No construction materials supplies, tools, trailers or vehicles will remain outside overnight or on weekends.
- 4. Any noise from construction activity will only occur from 8:00 AM until 5:00 PM, Monday thru Friday.
- 5. Construction activity is conducted in a manner that does not leave any dust, scraps, paint or other damage to the exterior stairs, railings, decks, building walls or driveway surfaces of Lake Forest.

Standards:

- 1. Windows and exterior doors. A unit owner may replace windows or patio doors in their unit only with approved products from the list in *Attachment A*. Exceptions to this list may be granted on a case-by-case basis only upon written approval by the Board. Note that Summit County requires that all window and door replacements meet County energy codes and be permitted before installation.
- 2. **Front doors.** A unit owner may not replace or modify the front door. It is a limited common element.
- 3. **Front door locksets and deadbolts.** Owners may replace front door locksets and deadbolts. The recommended exterior standard is bright brass to coordinate with original materials and recently renewed unit numbering. Typical examples are shown in **Attachment B.** Exceptions to this list may be granted on a case-by-case basis only upon written approval by the Board.
- 4. **Screen/Storm Doors** Owners may install screen/storm doors on the entry of their unit. The only storm/screen door approved for Lake Forest is shown in **Attachment C.** Exceptions to this standard may be granted on a case-by-case basis only upon written approval by the Board.
- 5. **Flooring.** Lake Forest Condos were initially constructed with carpeting on most of the flooring. This provided a reasonable sound barrier for any units on lower floors. If an owner wishes to replace the current flooring with a solid type of flooring, for non-carpet flooring—i.e., hardwood, tile, composite synthetic wood etc.—Board approval is required to ensure adequate sound protection (such as an underlayment) for adjacent units.
- 6. <u>Interior Walls</u> No interior walls may be constructed in units or garages that interfere with the proper operation of the fire suppression sprinkler system. No structural changes to interior walls are allowed without written Board approval.

Final Revision 3/9/2020

- 7. **Fire Suppression System.** Relocation or modification of any element of the fire suppression system will not be allowed for safety and contractual reasons.
- 8. **Shades, blinds, and curtains.** Unit owners' choice may be installed, so long as the street-side color is a neutral color such as white, ivory or beige with no other design or lettering showing.

Authorized and enacted by the Lake Fore	st Board of Directors. March, 2020.

Dear Unit Owner:

We appreciate the opportunity to work with your Property Manager, Kevin Lovett, in placing the Association's Master Insurance Policy for Lake Forest Condominium Association.

Attached is a certificate of the Association's insurance for your files.

The Board of Directors has elected to obtain a Master Policy that has been written to comply with the Associations Condominium Declarations Insurance Provisions.

The Association is to insure the following:

- Common Elements (Buildings and/or Structures and common areas)
- Limited Common Areas (Outdoor decks/balconies, patios)
- Property included in units which were initially installed in accordance with the original plans and specifications or a replacement of same as like, kind, and quality.

Unit Owners are to insure the following:

- Any improvements and/or upgrades installed by owners
- Contents such as furniture, furnishings and other personal property
- Loss of assessments, Loss of income (if property is a rental unit), Loss of Use
- Personal Liability

Please refer to the Association's Governing Documents (Condominium Declarations) for further information regarding the insurance requirements for the Association and Unit Owners.

If you have any questions or need additional information, please contact me or Pam Linares.

Sincerely,

Steve De Raddo

RESOLUTION OF LAKE FOREST CONDOMINIUM ASSOCIATION UNIT MAINTENANCE AND PROPERTY INSURANCE

SUBJECT:

Adoption of policies and procedures regarding Maintenance of Units and Insurance.

PURPOSES:

- 1. Clarify maintenance obligations of each Owner in the Declaration to keep the Owner's Unit in good repair, avoid damage to other Units and Common Elements.
- 2. Confirm Association property insurance coverage, recommended homeowner insurance coverage to be obtained by Owners.
- 3. Reduce insurance claims and potential increases in insurance premiums.

AUTHORITY:

The Declaration, Articles of Incorporation, and Bylaws of the Association. See also the Colorado Common Interest Ownership Action ("CCIOA").

EFFECTIVE DATE:

6-5-2021

RESOLUTION:

The Association adopts the following Policies and Procedures subject to:

<u>Definitions</u>: Unless otherwise defined, initially capitalized or terms defined in the Declaration shall have the same meaning herein.

Supplement to Law. The provisions of this Resolution shall supplement the provisions of the Declaration and the law of the State of Colorado governing the Lake Forest Project.

<u>Deviations</u>. The Board may deviate from any provision of this Resolution if in its sole discretion such deviation is reasonable under the circumstances. <u>Amendment</u>. The following policies may be amended from time to time by the Executive Board.

CONDOMINIUM UNIT AND COMMON ELEMENT MAINTENANCE

- 1.1 Community Quality of Life. All Owners are Members of the Association which will always endeavor to observe and promote the cooperative purposes for which the property was built. Because neighbors rely on one another to maintain the quality of life and property values in the Community, each Member is more accountable to other Members than in other communities without shared Common Elements. This maintenance policy clarifies the duties of each Owner to keep the Owner's Unit in good repair, to avoid damage to other Units and Common Elements, to minimize insurance claims, and to promote enjoyment of the community by all residents.
- 1.2 "Individual Air Space Unit" or "Unit" means a Unit depicted on the Condominium Map bounded by the perimeter unfinished walls, ceilings, and floors. A Unit includes all wallboard, paneling, tile, paint, paper, carpeting, or any other finished surfaces. All other portions of the perimeter walls, ceilings, and floors are Common Elements. A Unit includes any heating, electrical and plumbing fixtures, pipes, utility lines and all other fixtures which serve

only the Unit. Any structural component of the building or chute, duct, wire, fixture, utility or service line located within the Unit, but serving more than one Unit, is a Common Element.

Any exterior windows, doors, decks, porches or other fixtures designed to serve a single Unit, but located outside the boundaries of a Unit, are Limited Common Elements ("LCE") allocated exclusively to the Unit.

- 1.3 Condominium Unit Maintenance and Repair. All maintenance and repair of a Condominium Unit is the sole responsibility of the Owner of each Unit. Each Owner also has the responsibility to:
- a. promptly report to the Association or its managing agent any defect or need for repairs, for which the Association is responsible;
- b. pay for the cost of repairing, replacing, or restoring any damage, regardless of negligence, resulting from the failure of any fixture located within a Unit which the Unit Owner has the responsibility to maintain; this reimbursement obligation includes costs to inspect and repair damage to any other Unit, and any Common or Limited Common Element arising from any Owner's Unit. For example, if a water leak caused by a leaking water heater in a 3rd floor Unit causes the Association to inspect downstairs units to confirm whether furnace damage has occurred, the costs of such unit inspection will be paid by the Unit Owner who has the duty to repair the water heater.
- c. perform maintenance responsibility in such manner so as not to unreasonably disturb or put at risk other persons in Units, other Units or the Common Elements.

An Owner shall be strictly liable for all injuries or damages to person or property caused by any incident occurring or originating from within a Unit or resulting from the Owner's maintenance or lack of maintenance of the Unit.

- 1.4 Common Element Maintenance. All maintenance and repair of any Common Element or Limited Common Element is the responsibility of the Association subject to the exceptions below. The Association will repair damage to Limited Common Element windows and the interior of garages which is covered by the Association's property insurance.
- a. Each Owner will maintain and repair the exterior windows of the Owner's Unit and the interior of the garage allocated to such Unit.
- b. Owners will keep Limited Common Element decks and balconies clean and in good order so as not to interfere with use of any other deck or balcony.

INSURANCE DEDUCTIBLES AND CLAIMS

2.1 Insurance.

a. The Association will maintain liability insurance and property insurance for the Common Element Buildings, the Limited Common Elements (including the LCE garages, decks and balconics) and the Units. The Association policy shall cover the replacement costs of

Units and garages in accordance with the plans and specifications of the Property as originally built and will cover the replacement costs for all Common Element Buildings.

- b. Owners are responsible for repair of any upgrades and improvements to a Unit and LCE garages. Each Owner should obtain a homeowner's policy (HO-6) for a Unit to cover personal liability, Owner improvements and upgrades, personal property, loss assessments, loss of use and loss of income for rental units, unless the Owner desires to self-insure such risks. Every Unit Owner shall upon request submit to the Association proof of homeowner's insurance or shall submit to the Association a written statement that the Owner accepts the risk of being self-insured.
- 2.2 Deductible Amount. From time to time, the Board, in its reasonable discretion, may set, increase or decrease the amount of the deductibles for the Association's insurance policies.
- 2.3 Payment of Deductible by Responsible Owner. If the Association settles any insurance claim the Board may assess all or any part of deductibles paid by the Association to an Owner causing the loss or an Owner benefitting from the repair or restoration. In the event that there is more than one Unit damaged by a loss which is covered by Association insurance, the Board in its reasonable discretion may assess each Unit Owner a pro rata share of any deductible paid. All determinations by the Board will be made in a nondiscriminatory manner. In the event the Board determines in its reasonable discretion that good cause exists to not assess all or part of any deductible as permitted above, the deductible shall be paid by the Association as a Common Expense.

2.4 Claims Against Association Policy

- a. Notice of Claim. Any Owner who may have a claim covered by an Association insurance policy, upon discovery of the claim, will promptly notify the Board in writing. The Association will have a reasonable time to investigate the Owner's claim and may file such claim on behalf of the Owner. If the Board does not file a claim or elect to repair the damage as provided in subparagraph b below it will notify the Owner within fifteen (15) days of receiving the Owner's written notice, and the Owner may file a claim against the Association's policy.
- b. <u>Association Payment of Claim.</u> The Board in its reasonable discretion may choose not to submit any claim to the Association's insurance carrier, including an Owner's claim, provided that the Association causes the loss to be repaired or adjusted to the extent such claim would have been paid had the claim been so submitted. In such event the Board may assess the applicable deductible as provided above.

UNIT MAINTENANCE AND INSURANCE CHART

The responsibilities of the Association and Owners for maintenance and property insurance are summarized in the chart attached as Exhibit A. If the provisions of this Resolution conflict with the Declaration, the provisions of the Declaration control.

3

	n, certify that the foregoing Resolution was adopted at a duly called and held meeting of the Executive
Board on the 61 day of Thhe	at a duly called and held meeting of the Executive _, 2021.
