

Oversized Vehicle Parking Plan

Because of complaints we have received from owners and guests about no place to park their oversized vehicles – especially during high occupancy periods, and continuing damage to the garage doors caused by oversized vehicles, the most common happening the week of May 25th, we will be implementing the following Oversized Vehicle Parking Plan.

Definitions:

Oversized vehicles – vehicles in excess of 6’8” (80”) in height, or in excess of 19’ (228”) in length are prohibited from entering or parking in the underground garage, including passenger vehicles with cargo boxes installed and/or ski racks which exceed those limits.

Outside Handicapped Parking Space – the 2 current vertically located handicapped spaces facing the highway have been be relocated to 2 of the 4 parallel spaces in front of the Lodge: specifically, the one in front of and the one behind the sloped front walkway to the Lodge.

Oversized Vehicle Parking Spaces – 6 of the vertically striped parking spaces facing the highway in the front parking lot, are reserved for Oversized Vehicles.

Only Oversized Vehicles are permitted to park in the designated Oversized Vehicle Parking Spaces. All vehicles are be allowed to park in the 2 remaining parallel spaces on the building side of the front parking lot.

Restricted Parking for the Oversized Vehicle Parking Spaces will be enforced by SRG employees by placing dated warning signs on illegally parked vehicles daily. If the same vehicle is cited on multiple occasions it will be booted at the following inspection.

Any Oversized Vehicle parked in the garage will be booted.

Fines of \$100 will be levied and collected to remove the boot on the illegally parked vehicles.
