Lagoon Townhomes HOA Pickleball Paddle Approved/Banned List

In an effort to reduce the recreational noise caused by the game of Pickleball, the Lagoon HOA Board of Directors have published these rules consistent with the current best practice for noise mitigation. While we acknowledge that most recreational sports create noise, we also acknowledge that changes in the manufacturing of paddles used in the game of Pickleball have also changed the noise created by the game, compared to several years ago.

This list is based on the sound study performed by an independent company. The Club provided assistance by testing the most commonly used paddles, allowing to borrow their a chart so those playing the game or thinking of playing the game would know what paddles are allowed on Lagoon's 2 pickleball Courts. One thing pointed out and also observed is that a simple "ear" test (listening to play) will also alert those monitoring when a player is using a paddle that is much louder than the approved paddles.

Below is a chart sorted into Green and Red Zones:

<u>Green Zone</u> - Those paddles fall within acceptable noise levels and are approved for use on the Lagoon Pickleball Courts. If you are looking to buy a new paddle, you would be safe to choose a paddle from this zone.

Green Zone paddles are the only paddles approved for use on Lagoon's Courts.

<u>Red Zone</u> - These paddles are not allowed on **Lagoon's** courts under any circumstances.

Sincerely, Lagoon HOA Board of Directors

<u>The paddle testing used herein i is only made</u> <u>available us as a courtesy</u>. <u>It is not, and never will be, a</u> <u>perfect test but it has reduced the noise from paddle use on our courts</u> <u>significantly and is therefore an important part of our communities desire</u> <u>to reduce the noise at our courts</u>.
